Risk screen

63

AP RESEARCH · ONE PER STUDY · BEFORE ANY DATA IS COLLECTED

STUDENT CODE _____ PERIOD _____ DATE _____

College Board's rule. Your teacher must judge four things: possible harm, possible benefit, how people agree to take part, and how their identity is protected. "Proposals that pose more than minimal risk to participants cannot be approved."

☐ My study has **no participants**: public data or published texts only. Skip to the last box.

Who takes part who, how many, how I reach them	
Ages	☐ All 18 or older ☐ Some or all under 18: guardian permission and student assent
What they do each step, and the minutes it takes	
What I collect	☐ No names at all ☐ Names replaced by codes ☐ It could identify a person

Possible harm	Rate it	Why
Physical	☐ None ☐ Minimal ☐ More	
Emotional	☐ None ☐ Minimal ☐ More	
Social	☐ None ☐ Minimal ☐ More	
Academic	☐ None ☐ Minimal ☐ More	

Benefit to the person, or to the community	
How people agree	☐ Signed form ☐ Told they may skip or stop ☐ A different activity for anyone who says no
Privacy	☐ Data plan attached ☐ Code key kept apart from the answers ☐ Deletion date set
Beyond this course	☐ I will not publish, compete, or present publicly ☐ I plan to: a registered review board must also approve

Teacher: ☐ **Approved** ☐ **Revise and return** ☐ **Not approved** **Initials** _____

Date _____ **Data collection may start on** _____
